RE: Weld County Road Maintenance Project

Dear Landowner or Tenant,

This letter is to inform you of County Road maintenance projects that are now in design phase and are slated to begin construction this summer. Your property abuts one of these projects: WCR 32, or WCR 39. During the design phase, you can expect to see surveyors and other civil engineering professionals on the roadway. During the construction phase (schedule to be determined), we anticipate that there will be temporary detours and other traffic control setup to accommodate construction operations. Additional coordination with you may be necessary, depending on maintenance goals or other constraints. We apologize for any inconvenience this causes and thank you in advance for your patience with us during this time.

If you have any questions, please feel free to email me at the address below.

Thank you,

Rick Behning, PE
Project Manager
